WORK EXPERIENCE

BDO USA

Senior Software Engineer · Houston, TX (Remote) · Mar 2025 – Present

- Build and deliver custom enterprise web applications for clients using **C#/.NET, Angular, and Microsoft Azure** across multiple concurrent consulting engagements.
- Architect and deploy cloud-hosted solutions on Azure, including CI/CD pipelines and infrastructure provisioning for each client environment.
- Collaborate directly with client stakeholders to scope requirements and deliver against project milestones.

Ovice

Software Engineer — UI/UX · Japan, Ishikawa (Remote) · Nov 2022 – Aug 2024

- Shipped UI/UX features for a virtual workplace platform serving **50,000+ daily active users**, including User Statuses and custom Profiles.
- Built REST and WebSocket APIs in **Elixir**, enabling real-time front-end features with low latency.
- Mentored a junior engineer in TypeScript and React; established team code-review practices and coding standards.
- Collaborated across a distributed engineering team spanning 6 countries.

Koalafi

Full Stack Engineer · Richmond, VA (Remote) · Sep 2021 – Oct 2022

- Maintained a .NET MVC platform powering point-of-sale financing for **thousands of retail locations**.
- Decomposed a monolith into event-driven microservices using **Golang** and AWS Step Functions, improving scalability and deployment independence.
- Provisioned cloud infrastructure with **Terraform** and AWS, enabling repeatable, auditable deployments.

ExxonMobil

Software Engineer → Application Architect · Spring, TX · May 2016 – Sep 2021

- Led architecture for a replacement of internal planning software responsible for **\$20B+ in annual revenue**.
- Built and maintained multiple internal web applications in Angular, React, .NET Core, and Entity Framework.
- Designed CI/CD pipelines in Azure DevOps with **Terraform** for infrastructure-as-code automation.
- Delivered global training for **100+ users across 30+ countries**; rewrote curriculum and led in-person and virtual sessions.
- Cut team on-call burden from 8 hrs/day to 1 hr by automating operations with **Python** and VBA scripts.

SKILLS

- JavaScript (ES6, React, Angular, Node.js)
- TypeScript
- Elixir
- Golang
- Python
- C# (.NET Core, Entity Framework)
- SQL (PostgreSQL, SQL Server)
- Cloud — AWS & Azure
- Terraform / IaC
- CI/CD · Git · Agile

EDUCATION

Virginia Tech

B.S. Computer Science

Aug 2013 – May 2017

Blacksburg, VA
